

Regarding New Jersey's Do Not Call Rules:

Please protect my right as a citizen to be in my own home and not be interrupted by advertising. If I am doing business with a company and want to call them, I will do so during their regular business hours. I don't call them at home when they are with their family. I do not want them calling me at my home during my dinner, in the evening or on weekends. Please do not change the law that is passed in NJ.
